

15 APPS TO WATCH OUT FOR

MeetMe

Where teens can easily be in contact with users much older than them, with an emphasis on dating.

Holla

This app is all about connecting strangers around the world through video chat. Enough said.

Hot or Not

This app rates users on attractiveness. There's no age verification and users can send each other messages.

Kik

This app is specifically for kids, but anyone can join and anyone can contact or direct message your child.

ASKfm

This app encourages people to allow anonymous users to ask them questions, which opens the door for online bullying.

SnapChat

This app is a messaging app but you can send unlimited messages, video chat, and see your and others locations.

Skout

Flirting app that's used to meet and chat with new people. Teens and adults are in different groups, but ages aren't verified.

Grindr

This app is geared towards the LGBTQ community. It allows users to share photos and meet up based on phone's GPS location.

Badoo

This app is a dating app for adults, but teens can still find ways to join.

TikTok

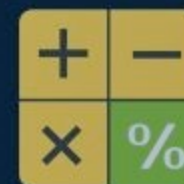

This app is used for sharing user created videos that can contain bad words, even adult content.

LiveMe

This app is a live streaming app, but you don't know who's watching and your kids location is revealed.

Calculator%

This app is one of several secret apps that allows kids to hide their photos, videos, even browser history.

WhatsApp

This app is for messaging, but what you should know is teens can send unlimited messages, have video chats and even share their live location with other users, people they may not even know.

Whisper

This app is a social confessional where kids can remain anonymous, but still share their feelings. And it can reveal your child's location for a meet up.

Bumble

This app is a dating app for adults, but teens can still find ways to join.
